## **DETAILED ACTION**

### ***Claim Objections***

Claims 1-11 are objected to because of the following informalities: In claim 1, lines (11 & 14) the terminology "support value" is misspelled and should read - - support valve - -. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 rejected under 35 U.S.C. 102(b) as being anticipated by Kapeker (US Patent No. 3,071,935). Kapeker discloses a refrigeration system comprising an auxiliary type heat exchanger (16) whereby the low & high side refrigerants are in heat exchange, a valve (32) upstream of said auxiliary heat exchanger, a condenser (12) and a compressor (10).

### ***Allowable Subject Matter***

**Claim 12 is allowed over the prior art of record.**

Claims 2-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
